Both Mr. Myers and Mr. Williamson are enthusiastic in their admiration of everything that is in Oregon. They think that the State is the very greatest in resources in the Union, and are confident that the time will come when everybody will acknowledge it. In the course of the hearing before the Sonate Committee on Exposition recently on the bill making an appropriation of over a million dollars to the Portland Exposition, Mr. Myers made some statements relative to the Prichness of Oregon and the wealth of Portland that some of the members were inclined to question, but in every instance he produced the authority of the government or of big shipping companies to substantiate what he said. His statement that there were seventy-two wholesale and importing houses in Portland which did an annual business of more than a half million dollars a year could scarcely be credited, but it was substantiated without difficulty. No less striking was the fact asserted that there is fifty million dollars on deposit in the banks of Portland, and that ten millions are loaned in New York.

Major Johnston thought that in eleven years practically all the veterans at the Scidlers' Home will have passed away, the property reverting to the State. The ranks of Lee Camp itself would be greatly devieted in that period. Members were ever falling out, with no young blood flowing into the body.

### VERY STRIKING UTTERANCES DISCUSSION IN THE SENATE

It Dealt Entirely With Question of a Congressional Investigation of the Department.

(By Associated Press.)
WASHINGTON, D. C., Jan. 8.—Alleged postoffice fratids were under discussion in the Senate to-day, the subject being opened in a set speech by Mr. Simmons (North Carolina) who insisted there should be an investigation by the Sonate into the charges. Mr. Platt (Connecticutt) denied that the Republicans were trying to cover up any wrong-doings in the Postoffice Department, and said they were simply contending that the Postoffice Committee should ascertain what was to be investigated. Tho discussion was participated in by Messrs, Burrows, Dolliver and Quaries, on the Republican side, and Messrs, Carmack, Tilman and Teller, on the Democratic

Mr. Simmons said it was clearly the Mr. Simmons said it was clearly the purpose of the Republicans not to permit any further inquiry into the frauds and scandals of the department. He predicted that when the resolutions came back from the Schate Committee, they would be defeated by practically the unanimous vote of the Republicans. It was apparent, he said, that no further investigation would be permitted on the eve of a presidential election.

Speaking of the Bristow inquiry, Mr. Simmons said the reports of that inquiry

Simmons said the reports of that inquiry showed it to be one directed solely into crimes committed within the department, and that the various bureaus were not subjected to the general search for the disclosure of irregularities, not punishable as crimes.

SHOULD RECOVER MONEY.

"I do not charge that every branch of the department is recking with fraud," said he, "bur it will be difficult to convince the people that such is not the case. The investigation that has been had, is merely of a legal character."

Mr. Simmons made the point that frauds exposed by Mr. Bristow, in nearly every instance form a civil liability and that government funds, which had been wasted, should be recovered in a court of law.

Mr. Tillman said that a number of years ago, he had asked that rural free delivery boxes be supplied to farmers at cost, and that he had submitted a samile box, which sold for fifty cents. This box, said Mr. Tillman, was furnished later at \$1.25 and \$1.50 each. He wanted to know whether any investigation of this case had been made.

Mr. Simmons answered that the Bristow report exposed many such cases.

eport exposed many such cases.
Mr. Simmons referred to former Assist-

ant Postmaster-General Heath, and said that there was every reason why an in-quiry should be directed to finding out what his connections were with the postwhat his connections were with the postoffice scandals. He did not say Perry
Heath was guilty, but if he was not
connected with the frauds he was surrounded by the most curious set of circrumstances that had ever been known.
Mr. Simmons also criticised former Postmaster-General Smith, because he did
not investigate the Tulloch charges.
Speaking of Mr. Tulloch's experience
in the Postoffice Department, Mr. Simmons said: ons said:

"Who knows but what his

mons said:

"Who knows but what his dismissal was for the purpose of intimidating other employes who might have had information for the exposure of frauds?"

MR. PLATT DENIES IT.

When Mr. Simmons concluded, Mr. Piatt (Connecticut) said it had been charged by the Democratic senators in direct terms that if an investigation is not had, it would be because the Republicans objected to the investigation. He said that such was not the case; that what the Republicans had demanded was that the Postoffice Committee should conduct an inquiry to determine whether a congressional investigation is necessary. Exception to the Republican position was taken by Mr. Carmack, who said that the Democrats are not agreed to leave the matter entirely to the Committee on Postoffices and Post Roads. "We admit," he said, "that Mr. Bristow's investigation was thorough, so far as it went, but we deny that it was elaborate or comprehensive."

Mr. Plait contended that the committee should report to the Senate, whether an investigation is necessary, and Mr. Car-

ant. Platt contended that the contender an investigation is necessary, and Mr. Carmack argued that such an arrangement would wave the entire matter in the hands of the committee. The Senatorow, he said, should order an investigation. No course short of this would meet the demands of the situation. He declared that the Postmaster-General had stood in the way of an honest investigation, and in view of his obstinate opposition and in view of the fact that retremes had been found in some divisions of the Postofiles Dopartment, the interence was that there had been corruption in other divisions. For this reason he wanted an investigation, and he would have it non-partisan in character. would have it non-partisan in character

PARTISANRY.
Mr. Tillman charged that the opposition to an investigation was characterized by partisanship. There was an apparent attempt at congressional smothering. He

by partisanship. Theny was an apparent attempt at congressional smothering. He did not see how honest men could stand up in the face of public sentiment and try to prevent an investigation and allow the statute of limitations to "prevent the prosecution of the rascals."

Mr. Quaries criticised the remarks made by Mr. Carmack concerning the Postmaster-General, and Mr. Carmack explained that he referred entirely to Mr. Payne's predecessor. "In respect to the Tuiloch charges," said Mr. Carmack, "I do not think the present Postmaster-General was as diligent as he might have been. Perhaps he relied too much upon what had been the course of his predecessor."

Mr. Dollivar said the disclosures of extruption in the Postoffee Department, instead of convincing him that general investigation is necessary, has had the sitect of showing him that the business departments of the government have been well conducted.

Mr. Tillman asked why it is that the Republicans were so anxious to prevent an investigation. "We are trying to turn the rescale out," said he, "while you are trying to keep them in. You have much to gain by refusing to shed light on the department. We have much to gain by seposing corruption." Before answer was made to the question, Mr. Tillman, at the top of his voice, propounded another question:

RURAL, DELIVERY ROXES.

RURAL DELIVERY BOXES. "What about those rural delivery bexes? The man who had that had-ness in charge mas not been investi-gated."

Monroe Grove of Druids met in regular session at Concordia Hall last night, and transacted a lot of business of interest to the order. "You can't convince the chief of the sural free delivery, service that he has

not been investigated," responded Mr. Dollivar.

"No, the inquiry concerning the boxes was confined to boxes for cities," said Mr. Tiliman. "And what about Mr. Heath? Bristow says he needs investigating, but you could not convince Mr. Heath of that either, I suppose."

Mr. Dollivar replied that he had read the Bristow report and had found no charge that Mr. Heath needed investigating. Mr. Tiliman started to read the references to Mr. Heath and while looking for the place, said caustically:

"Well, if he was not besinirched by the report, he was inthocalle is a lattooed man."

Mr. Teller said that the only suggestion of a political purpose in an investigation had come from the Republican side. He said there was a general public demand for the investigation.

"If it is not made in accordance with this demand." he said, "you will hear such a roar as will make you tremble in your seats."

Further consideration of the investigation reconsideration resolutions was postponed until Mon-
